

The Solar Crown

Oh Sol Invictus! Corona Radiata!

Chosen by appointment, not mere elections...

Oh Lord of the Societal World

Your Crown radiates in all directions!

It's from you we learnt how to make it all spin

How to always be unconquerable and win

Letting us become the wheel turning Kings,

That central point of the layers of rings.

*You taught us how to turn the wheel of wheels
Rotary motion, spirals that went viral
Revealed us how to turn the reel of reels
It's with you only that we sealed the Deal.*
